****Temporary warming shelters available****

The Central Access Point (CAP) is a centralized intake system operated by **Strategies to End Homelessness**, for families and individuals who are currently experiencing homelessness or who are at risk of becoming homeless. Intake Specialists screen, assess and refer individuals to the program most suited to their needs.

This is a difficult time for anyone. We're here to help.

If you are currently homeless or are experiencing a housing crisis, call CAP to speak with an Intake Specialist who can talk to you about your situation and place you in a shelter or provide a referral to one of our partner agencies for help.
