Description:

In 2005, Teepa Snow, an occupational therapist and one of the world's leading educators on dementia and care, founded Positive Approach® to Care (PAC), a company that provides dementia care training, services, and products around the world. A core principle of PAC is that, in order to obtain the relationships and outcomes that are desired, the first and most important shift must originate with each person's own willingness and ability to change. Join PAC in helping to change the culture of dementia care, one mind at a time.

Positive Approach® to Care (PAC) provides a wide variety of services and products to enhance awareness and increase dementia care skills, including PAC Speakers, Teepa Talks, and Certifications. We also offer an array of virtual options and have a product store with many helpful tools and educational items for free and for purchase.
