Description:

Legacy of Love

Touching Hearts at Home is a non-medical home care company that began in St. Paul/Minneapolis, Minnesota, in 1996. We see the opportunity to provide caregiving services to seniors as a privilege that must be met with great integrity, always putting empathy and the belief in the dignity of all people at the forefront of our work.

This philosophy originated from the natural compassion of Touching Hearts' founder Renae Peterson, who received such a strong example of caring, kindness and concern from her mother, Melvina Peterson, that it continues to fuel her passion in our work to this day, and that we refer to as our legacy of love.

The need for care and companionship has grown dramatically in recent years as needs continue to rise, and Renae & her staff responded in 2007 by expanding through a network of franchised offices nationwide. Current family caregiver statistics show that more than 50 million people provide care for an ill, disabled or aging family member each year
