**Phone Extension:** N/A

**Contracted Provider:** Not Applicable

**Description:**

Ability Found is a publically supported 501c3 charity that provides mobility and other adaptive equipment to people in need. Ability Found specializes in assisting all ages of people with disabilities who do not have the financial means or insurance coverage to obtain the necessary equipment through traditional means.

Through our network of partners, Ability Found is able to provide mobility and adaptive equipment to those in need at low-and in some cases-no, cost. We are only able to sustain this critical service through the amazing generosity of individuals like you.

Our application process requires that clients apply through registered Professional Service Providers who have a good working knowledge of the equipment they are recommending. Professional Service Providers are typically physical, occupational and speech therapists, but can also be physicians, nurses, case managers and government service workers.

Once an application has been submitted, the staff at Ability Found will search for the requested equipment after which any applicable fees will be proposed to the client for payment.

Once a project is approved, the equipment is picked up by the Professional Service Provider or their representative at the Ability Found warehouse. The Professional Service Provider will also fit the equipment to the client and train them as necessary in its use. When shipping is necessary for the approved equipment, it is sent to the Professional Service Provider for delivery to the client.
