Description:

More than 7 million patients have received care from an Affordable Dentures & Implants (AD&I) practice. Each AD&I practice is individually owned and operated by a licensed dentist, who is the Practice Owner, and supported by Affordable Care, the largest dental support organization in the U.S. focused on tooth replacement services. AD&I practices have an on-site dental laboratory, allowing the practice to provide same day dental services.

AD&I Values is to provide Affordable Quality, Trusted Advisors, Community Driven, Non-judgemental care.

The first Affordable Dentures dental practice opened in 1975 in Kinston, North Carolina when founding dentists, Dr. George Edwards, Jr., and Dr. Donald Henson, saw a growing need in their community to provide dentures and tooth extractions at affordable fees. Today, Affordable Dentures is now known as Affordable Dentures & Implants, with expanded services that include dentures, extractions and dental implants

Provides affordable implants for a full range of solutions; to replace a single tooth, to stabilize a loose denture or to create a fixed/non-removable appliance

Affordable Dentures (they provide all sorts of low low cost dental work including extractions, dentures, partials, etc.)
