Description:

Mission Priorities

1. Raise the level of awareness of The ALS Association as the leading voice and most trusted source of information about Lou Gehrigs Disease.
2. Lead, direct and/or collaborate on global research to understand the disease, develop treatments and ultimately find a cure.
3. Provide every person with ALS and their families access to high quality, consistent and compassionate support services.
4. Advance a nationwide advocacy program that increases funding for ALS research, improves patient services and empowers the entire ALS community.
5. Function as one organization with unity of purpose.
6. Operate within a business model designed to ensure stability and promote financial strength.
