Description:

Behavioral Health Generations (BHG) is an alliance of Ohio Alcohol, [Drug](#) and Mental Health Service (ADAMHS) Boards formed in 1995 as a Council of Governments (COG) pursuant to Chapter 167 of the Ohio Revised Code.

Purpose

The purpose of the organization is to help our members and their provider agencies reduce cost, improve productivity and enhance the quality of their services through sharing resources and information. BHG provides opportunities for its members to:

- Achieve administrative efficiencies and cost savings through outsourcing non-mission critical administrative functions
- Participate in a forum of Board and provider collaboration
- Promote synergy and a collective voice in activities to establish standards and to meet increasing quality of care requirements.
