Description:

Accessible Vans of America (AVA) is dedicated to providing quality rental vans with handicap accessible features. The organization is comprised of a group of independent wheelchair van dealers who are all committed to improving the accessible transportation options for people requiring adaptive equipment for mobility. All wheelchair rental vans are regularly inspected to ensure that you receive an accessible vehicle rental that is reliable and comfortable.

Each location has a fleet of rental vehicles with wheelchair ramps. Some locations have full sized vans and adaptive driving controls in the vehicles for rent. Vehicle availability fluctuates with the normal seasonal and holiday demand. Please reserve a wheelchair van rental in advance to guarantee that a vehicle meeting your needs is available.

Accessible Vans of America (AVA) has a wide variety of locations providing rentals of wheelchair accessible vans around the U.S. Each location has its own inventory of handicap accessible vans for rent with lowered floors, power ramps, and wheelchair lifts. Also available are hand controls, steering knobs, and other types of accessories to help you with any mobility needs. Whether you need a wheelchair van rental for the day, the weekend, or weeks at a time the location nearest to you will be happy to provide you with the right mobility van for you.
